DEPARTMENT OF AIML

PRESENTS

- LEARNING BYTES -

VOL - 1

SESSION : 2022-23

OUR VISION

To become cutting edge, nationality renowned center of excellence in computer science and engineering (AI and ML). With the revolutionary power of AI and ML, we hope to lead the way in cutting-edge research, innovation, and education while also empowering our staff, students, and society at large.

OUR MISSION

- To create an intellectually stimulating learning environment.
- To impart value based, innovative, and research oriented education.
- To increase employability and entrepreneurship through collaboration with industries and professional organizations.

From HOD's Desk

Dr. Namrata Tapaswi
HOD - AIML

The creation of intelligent solutions to practical challenges is being led by artificial intelligence and machine learning technology. Machine learning is essential for the majority of our present and future applications as our technologically advanced civilization increasingly relies on digital data. In the near future, engineers with experience in artificial intelligence will be required in all of the key industries, including healthcare, Industry 5.0, finance, agriculture, security, law, and environmental management. In order to lead the development of internationally qualified engineers with an understanding of artificial intelligence (AI) and experience using AI to apply to difficult projects, the Department of Computer Science & Engineering (Artificial Intelligence and Machine Learning) was created in 2020. The department has 120 students enrolled in its B.Tech CSE(AI&ML) programmes. A degree from this programme is significant and will

and interpersonal skills. Deep Learning, Pattern Recognition, Natural Language Processing, and many other elective courses are among those taught by the department's highly qualified professors. The faculty has projects to their credit in conjunction with businesses, foreign universities, and reputable research labs. They are actively involved in research and publications. The students have actively participated in both research and application-based initiatives with businesses, R&D facilities, and academic institutions. Through global immersion programmes, internships, industry co-teaching, certificate programmes, workshops, and project-based teaching and learning pedagogy, the programmes give students the chance to develop themselves holistically. For conducting specialised modules in Natural Language Processing, Deep Learning, and AR-VR as well as for research projects and internships, the department also works in collaboration with Infosys Springboard.

Our goal is not to turn our students into verbatim walking manuals for any language or software. Instead, students are given a solid foundation in AI & ML taught how to solve problems, and made flexible. This method of teaching-learning, along with the practical experience gained through industrial training in reputable companies, is what we think best prepares our students to meet the difficulties provided by the software industry.

College Life

College life is a transformative and pivotal period in every person's journey. It marks the transition from adolescence to adulthood, where we students embark on a path of self-discovery, academic challenges, and personal growth. The college experience is a vibrant tapestry woven with diverse activities, relationships, and opportunities that shape individuals into well-rounded and independent adults. College life is the period of our life where we enjoy and live our life to the fullest.

As J.K. Rowling said,

"And so rock bottom became the solid foundation on which I rebuilt my life."

We should take the challenges as life-changing opportunities to rebuild our lives as we want. And always remember you are braver than you believe, stronger than you seem, smarter than you think, and twice as beautiful as you'd ever imagined.

“ए—आई की दुनिया: कोड के पीछे का जादू”

एआई की दुनिया में, एक अनोखी हलचल है,
कोड की जादू से, सब कुछ मुमकिन है।
मशीन लर्निंग के जजबात, डेटा से जुड़ते हैं,
पैटर्न्स की दुनिया में, नए रास्ते चुनते हैं।
डीप लर्निंग का जादू, न्यूरल नेटवर्क्स में छुपा,
लेयर्स के बीच में, एल्गोरिथ्म्स की कहानी है झंका।
एनएलपी की बोली, वर्ड्स का खेल है यह, मशीन्स को
सिखाना,
हमारी भाषा का रंगीन रंगीन मेल है यहां।
सेंटिमेंट्स, कॉन्टेक्स्ट, सब है उनकी बातें,
वर्ड्स की दुनिया में, एआई का है नया छापा, नए गीत।
चौटबॉट्स से लेकर, ट्रांसलेशनस की मस्ती है यहां,
मशीन्स ने सीखा भाषा, कर दिया है हमारा साथ यहां।
हेल्थकेयर, फाइनेंस, और भी कुछ नए द्वार,
एआई की खोज में, हम बड़े क्यूरियस हैं यार।
कॉलेज मैगजीन में, एआई का है यह समा,
कोड की दुनिया से लेकर, है यह कहानी का सफर
यहां।
हर लाइन में छुपी है एक राज, एक नया अंदाज,
एआई, एमएल, डीप लर्निंग, एनएलपी दृ यह है कहानी
की पहचान।
दिलचस्प टि्वस्ट, क्यूरिओसिटी का साथ,

“ पिता का प्यार ”

गमुस्कुराहट मेरे चेहरे पे,
खुशी मेरे पिता को है,
क्या कुछ नहीं किया उन्होंने मेरी इस मुस्कुरा.
हट के पीछे,
मेरी हर ख्वाहिश पूरी की अपनी इच्छाओ को
पीछे छोड़ कर,
हर कोई बात तो करता है माँ के लाडले की
माँ के दुलारे की लेकिन कोई तो बात करलो
पिता के राजा बेटे की,
अपने प्यार को शब्दों में बयां नहीं कर पाते हैं
लेकिन उनसे ज्यादा कोई और प्यार कर भी
नहीं पता है,
बस अपने बच्चे को खुश देखना चाहते हैं वो,
“बस मेरा बेटा है वो” पूरी दुनिया को बतलाना
चाहता है वो,
ऐसे ही होते हैं सभी के पिता बिन बताए अपना

“मेने खुद को बढ़ते देखा है”

मेने खुद को बढ़ते देखा है अपनो को अपनो से
दुर होते देखा है
जज्बातों को काबू होते देखा है रात भर खुद को
रोते देखा है
मेने खुद को बढ़ते देखा है तालाब को समंदर
होते देखा है
पौधे को पेड़ में बदलते देखा है हालात को
जसबात बनते देखा है
लखावट को अपनी नखिरते देखा है एहा मेने
खुद में खुद को देखा है
गरि कर खुद को सम्भलते देखा है आसुओ को
आखो में भरते देखा है
रात भर खुद को रोते देखा है सपनो से खुद को
डरते देखा है
गलतयिों से अपनी सीखते देखा है ए मेने खुद में
खुद को देखा है
हा मेने खुद को बढ़ते देखा है

पन्नो में जिंदगी

गया जो बचपन आयी फिर जवानी पीछे जो देखा
मुड़कर तो आँखों में आया पानी खल गयी यादे जो
हो गयी थी पुरानी अब न रही वह कहानी जो सुना
करते थे जुबानी खो गयी मासूमियत और बढ़ गयी
शैतानी ठहर के सोचा जब बहुत, क्यूं जिंदगी पड़ी
है हमारी

भारी माथे पर आई सिलवटे और कंधों पर जिम्मेदारी
वक्त की है बातें सारी, उलझी रही कस्मित
वक्त न हो पाया हमारा, चलती रही दुनियादारी खूब
कहा था हमसे किसी ने कुछ पल का था बचपन
तेरा कुछ पल की बाकी जवानी
जी ले इसे वर्ना यह भी है बीत जाएगी और इन्ही
कुछ पन्नो में बंद हो जाएगी जिंदगी तुम्हारी

HAPPY ENGINEERS DAY

TEAM BUILDING ACTIVITIES

Somanipuram Adventure Park

30th December 2022

Event Coordinator:

Dr. Namrata Tapaswi
Head CSE (AIML)

Total no. of faculties:

Five
1. Dr. Namrata Tapaswi
2. Mr. Mayur Rathi
3. Mr. Sumit Jain
4. Ms Lucky Saxena
5. Mr. Nishant Vijayvargiya

Objective of the Event:

- To promote interaction and cooperation .
- To develop abilities including communication, planning, problem solving, and conflict resolution. To strengthen team relationships and morale.
- To develop good interpersonal and teamwork skills.

The Highlight of the Event:

On December 30, 2022, the faculties of Department of CSE (AIML) went to SOMANIPURAM Adventure Park for a team building activity. The activity's goals were to promote teamwork among participants and strengthen departmental ties. Certain teambuilding exercises and games emphasized cooperative teamwork in planning, making decisions, and taking action. Even though there were fewer people, everyone took part enthusiastically and worked to improve communication.

TEAM BUILDING ACTIVITIES

Nakhrali Dhani

28th Jun 2023

Objective of the Event:

- To encourage dialogue and collaboration .
- To enhance skills such as planning, communication, problem-solving, and conflict resolution, improving the morale and team dynamics .
- To improve interpersonal and collaborative skills .

The Highlight of the Event:

On June 28, 2023, the faculties of Department of CSE (AIML) went to Nakhrali dhani for a team building activity. The activity's goals were to promote teamwork among participants and strengthen departmental ties. Certain team building exercises and games emphasized cooperative teamwork in planning, making decisions, and taking action. Even though there were fewer people, everyone took part enthusiastically and worked to improve communication.

EDITORIAL BOARD

Mrs. Lucky Saxena

Assistant Professor

As members of the Editorial Board, we are delighted to present the latest edition of the AIML Departmental Magazine. This publication reflects the remarkable achievements of our AIML community, from pioneering research to the impressive contributions of our alumni. We extend our heartfelt appreciation to our dedicated team for their hard work and invite you to explore the profound potential of AI and ML in today's world. Your support, feedback, and contributions are invaluable as we continue our journey of excellence.
